Mindset

<epihack />

Participatory Surveillance

Consumer service vs. Public Health Database

Valuable to Participate vs. Duty

Interaction vs. Data Collection

Existing Channels & Media Vs. New tools

CC BY NC SA

Valuable Interactions

<epihack />

- Education
- Alerts
- Advice
- Screening
- Referrals
- Lookups
- Question Boxes

Key Takeaways

<epihack />

- Opportunities for mobile participatory surveillance combined with health channels

- Program managers prototyped their projects! And can continue working on them on their own
- PMs will be looking for support for implementations

cc BY NC SA
